

welcome home

Thank you for visiting "The Cottage," the newest offering from Extreme Home Renovations. On behalf of EHR and the many generous companies and skilled craftsmen who helped to make this home a masterpiece, we say "Welcome Home!"

This breathtaking home showcases many of today's most stylish and cutting-edge home-building technologies. It was specifically designed to incorporate truly practical and affordable elements of both form and function, beauty and brawn. Close attention was paid to enhancing the home's safety, comfort, and convenience. The technologies and designs you discover will exceed your expectations, yet are well within your reach!

We're so glad you are here, and invite you to make yourself at home. Take your time. Explore the details. Get new ideas and jot down some notes. This guide will help you identify providers of the products and designs that appeal to you most.

Many people ask, "When the shows are over, what becomes of the home?" The answer is simple; One of our guests moves in! This home was built not only to showcase the best of today's home-building products and techniques, but to be an enduring and loved home for a lucky family. While the beauty of this home is obvious, the quality is much more than skin deep. Double layers of 5/8" drywall and sound-reducing windows ensure peace and quiet, and three-point locks on all windows and doors help make you secure. Peek outside and notice the privacy fencing as well.

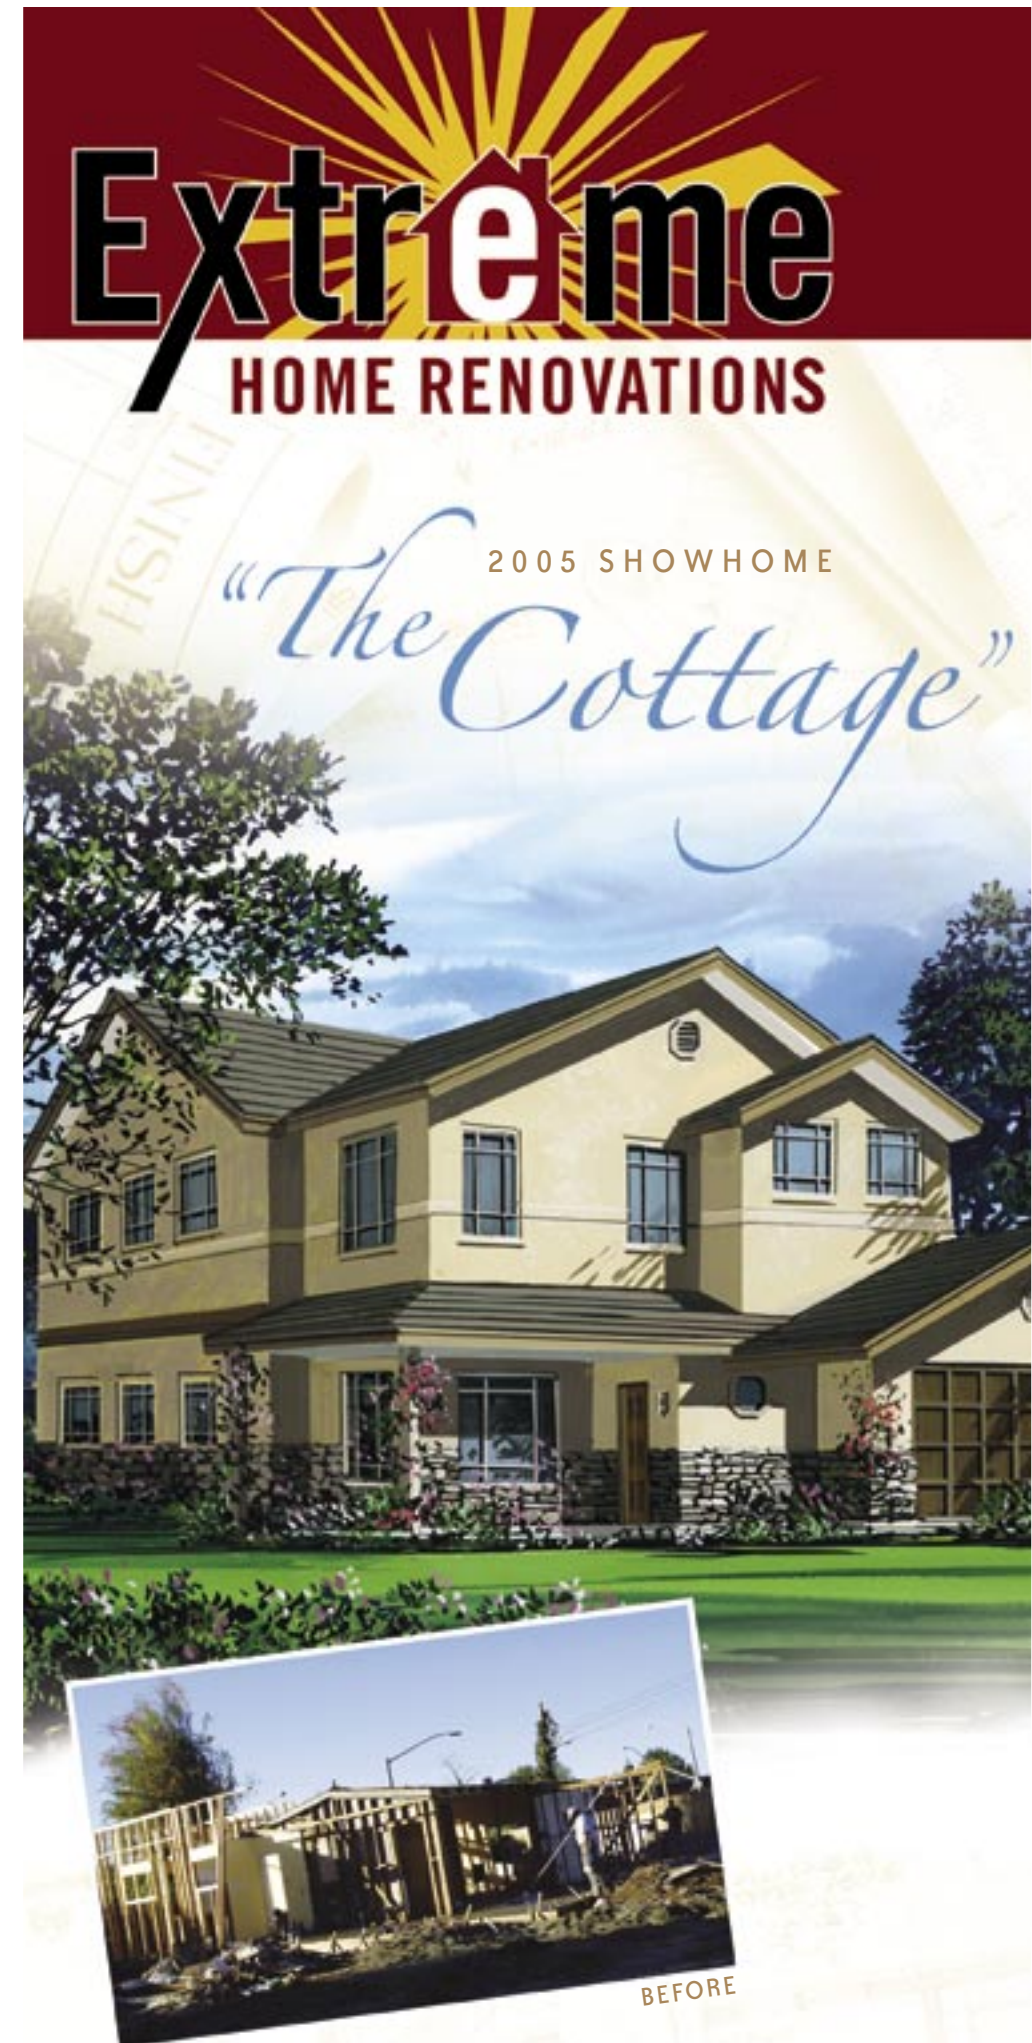

Please inquire about purchasing this home, and ask about future EHR show homes coming soon!

A Full-Service Design and Build Firm

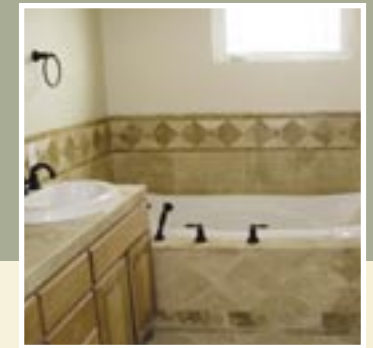

Darren Nielson, President
2712 Cowell Road • Concord, CA 94518
